

CORNWALL FORWARD

Economic Development

BLAZING A PATH FORWARD TOGETHER.

Dear Residents of Cornwall and Cornwall on Hudson,

We extend our heartfelt gratitude to each and every one of you for your unwavering enthusiasm and active participation in our collective journey towards the NY Forward Grant application and project review process. Your invaluable contributions through public workshops, surveys, and engaging on social media have been instrumental in shaping the future of our community.

We are thrilled to announce that all projects have been submitted and have undergone a rigorous review process, involving the Local Planning Committee (LPC), Municipalities, Consultant Team, State Team, Core Team, and most importantly, you -the vibrant and engaged community we are proud to serve.

The LPC has just concluded its final meeting, marking an important milestone. The next phase entails the creation of a Strategic Investment Plan (SIP) by our dedicated Consultant Team, which will be submitted to the state. As we eagerly await the results, we anticipate that the projects selected for funding will be announced by Spring 2024.

Your involvement has been, and will continue to be, the backbone of this endeavor. When the selected projects are unveiled, we will once again turn to you, our community, for your valuable input. Your opinions and insights will help shape the final outcome of these projects before the first shovels enter the ground.

Thank you for your commitment, your passion, and your dedication to our shared vision. Together, we are making our community stronger and more vibrant than ever.

With sincere gratitude,

Joshua T. Wojehowski, Town Supervisor, Town of Cornwall
James A. Gagliano, Mayor, Village of Cornwall-on-Hudson
